SUMMARY

Full Stack Developer with hands-on experience building responsive and interactive web applicationsusing HTML, Tailwind CSS, JavaScript, Node.js, Express.js, EJS, and MongoDB. Skilled in developingsecure backend systems, role-based authentication, and full-stack projects from development to deployment.Passionate about solving real-world problems and continuously improving technical skills.

PROJECT

School Portal (Student-Admin Portal)
• Role-based school management web application built using Node.js, Express.js, and EJS.
• Implemented JWT-based authentication, protected routes, and JSON-based data storage.
• Features include Admin & Student dashboards, Admin bulletin uploads for Students.
• Real-time group and personal chat using Socket.IO, CRUD operations, and secure access control.

Job Portal (Internship Project)
• Developed a full-stack job portal application with role-based authentication for users, recruiters, and admins.
• Implemented recruiter job management, admin approval workflows, featured job listings, and candidate application flows with email notifications using Nodemailer.
• Built with Node.js, Express.js, MongoDB, EJS, and Tailwind CSS, focusing on secure sessions, responsive UI, and real-world backend logic.

Personal Portfolio Website
• Fully responsive personal portfolio showcasing skills and projects.
• Clean Ul with interactive elements and form validation.

EDUCATION

B.Sc Computer Science
NAM College Kallikandy • 2025

SKILLS

Hard skills: Node.js, Express.js, MongoDB, JavaScript, Tailwind CSS, Server-side rendering with EJS, REST APIs, Middleware, Routing, Authentication (JWT), Sessions, Responsive Web Design, Git, GitHub

Soft skills: Problem-solving, Quick learner, Adaptability, Time management, Responsibility, Positive attitude toward feedback
